Quote of the Quarter

千里の道も一歩から

A journey of a thousand miles begins with a single step

This quote reminds us that every meaningful journey starts with a small but intentional step. Progress does not require perfection, just the willingness to begin and keep moving forward.

Some days will feel slow or difficult, and that is normal. What matters is showing up, staying patient, and learning along the way. When you focus on taking steady steps and doing your best each day, growth follows naturally.
